

VETERAN HOMESTEAD

May 6th, 2014

To whom it may concern;

It is with great pleasure that I write this letter of recommendation for BW Unlimited and their entire staff. Given the competitive nature of the Charity Fundraising world, there are many companies to choose from when it comes to coordinating a professional fundraising event. From my original inquiry, all the way to the execution, George and the BW Unlimited team actively listened to my needs and provided professional recommendations that helped our event succeed above and beyond. Additionally, George and his staff took the time to recognize the unique needs, and often times challenging limitations, that nonprofit organizations have when it comes to purchasing auction items.

I never knew the 'No Risk' business model existed and that we could essentially choose as many items as we wanted, have them shipped for free, and not pay a single dime upfront. The full concierge service that was provided by BW proved their transparency and passion in helping people for the good of charity. I would recommend BW Unlimited to any organization, especially veteran service organizations that are looking for a best in class service.

I will use BW Unlimited for any and all future fundraising events!

Thank you, BW Unlimited!!!

Sincerely,

Michelle Saunders
